

SHRINK WRAPPER WITH PROTECTIVE BOARD INSERT Model SW370 –G2 (MPC-2)

Automatic machine (Mariani patented) to produce shrink-wrapped bundles complete of protective board insert with Gable-Top or similar cartons from 250 to 2000 cc in different formats 2 x 2, 2 x 3, 2 x 4, 2 x 6.

Capacity : 12.000 cartons/hour.

The shape of the package unit can be programmed according to the specific customer's requirements.

SHRINK WRAPPER WITH PROTECTIVE BOARD INSERT Model SW370 –G2 (MPC-2)

The machine shrink-wraps the cartons in the required format and automatically inserts a protective board insert on top of the cartons which makes the bundle suitable and stable to be handled and palletised.

Mariani supply a special optional device placed immediately at the exit of Shrink-Wrapping machine applying adhesive handles on to multi packs bundles.

Operational fases :

Format Forming >>>>Top-Application

Shrink-Wrapping

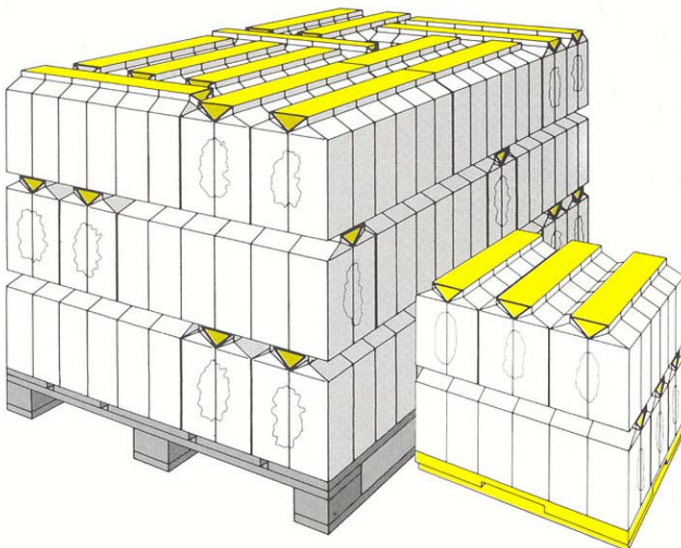

Protective board insert magazine with high capacity.

SHRINK WRAPPER WITH PROTECTIVE BOARD INSERT Model SW370 –G2 (MPC-2)

Machine characteristics

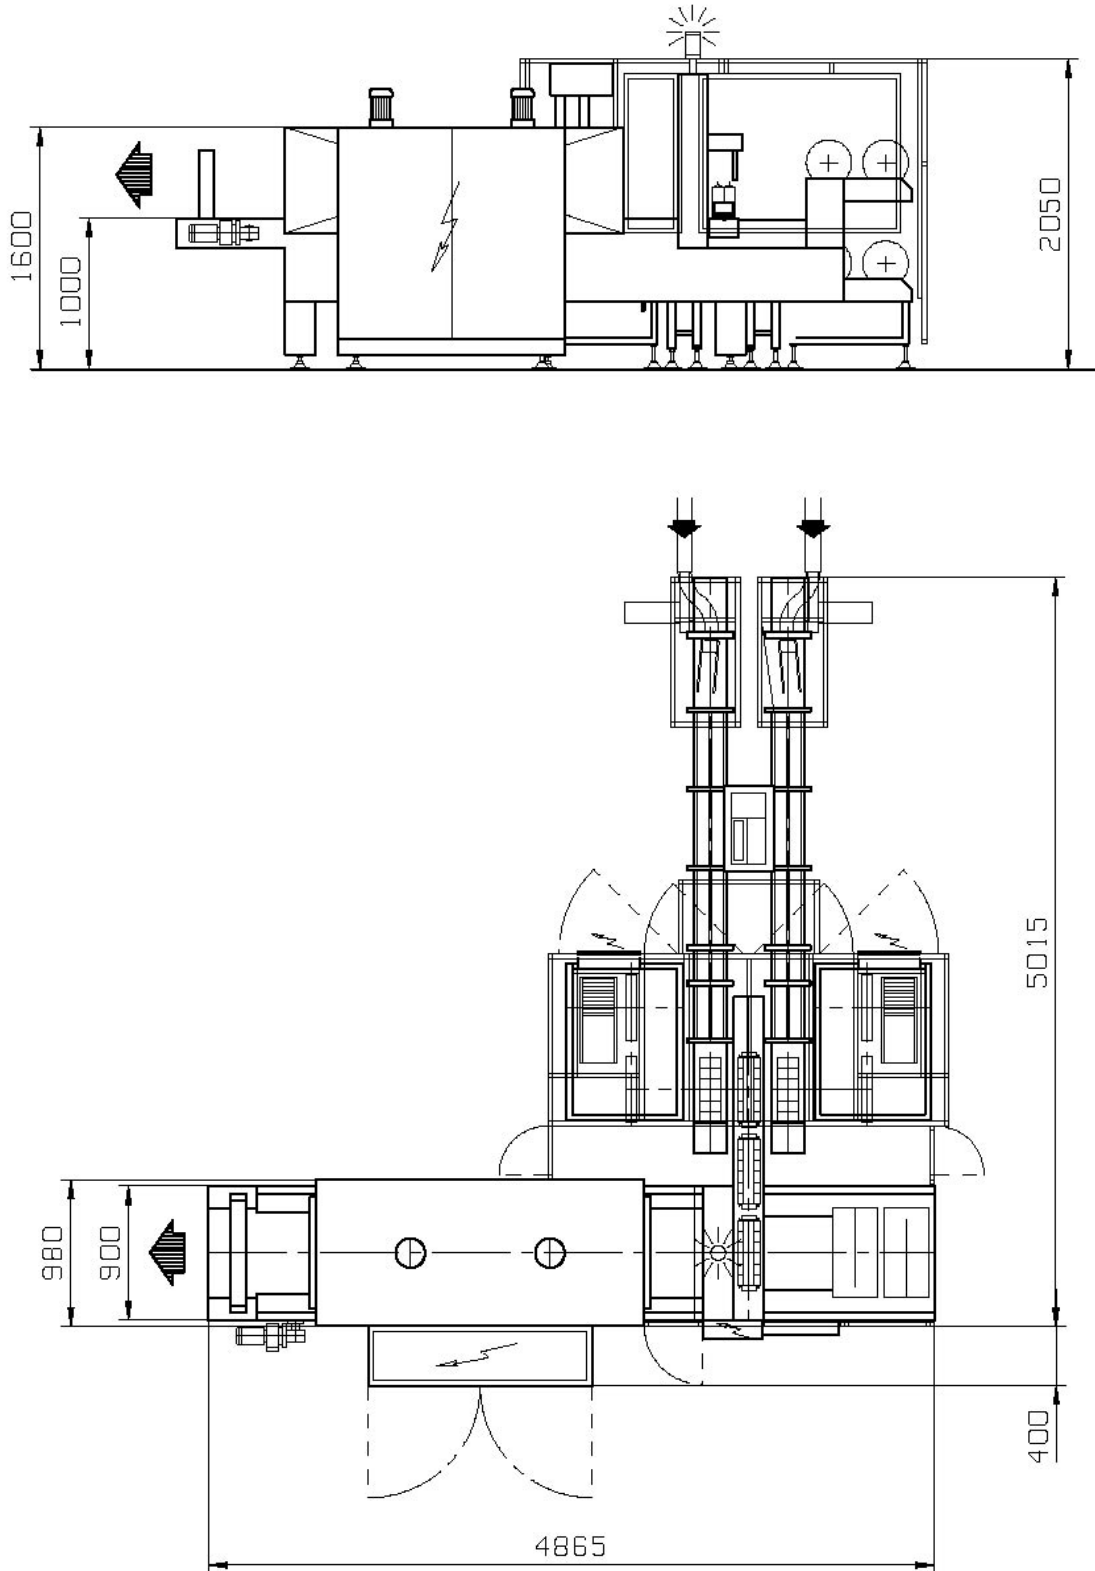

- ergonomic design which offers the maximum visibility of the working process and easy access
- easy and fast format change operations
- mainly built in stainless steel and designed for easy cleaning operations
